POLICY

To establish guidelines to adopt or amend policies and procedures in the Policies and Procedures Manual of the Board of Directors of South Bay Irrigation District (District).

POLICY 104 – CODE OF ETHICS

POLICY

The Board of Directors (Board) of South Bay Irrigation District (District) is committed to providing excellence in legislative leadership that results in the provision of the highest quality of services to its constituents and to comply with all applicable state laws including AB 1234 approved in 2006.

PROCEDURE

In order to assist in the government of the behavior between and among members of the Board of Directors and staff, the following will be observed:

A. The dignity, style, values, and opinions of each Director shall be respected.

B. Responsiveness and attentive listening in communication are encouraged.

C. The needs of the District's constituents should be the priority of the Board of Directors. When a Director believes he/she may have a conflict of interest, the Director may consult legal counsel to assist the Director in making a determination if one exists or not. If the Director determines that there is a conflict of interest or an appearance of a conflict of interest with respect to any official action that he or she needs to take as a Director, then the Director is responsible for disclosing such conflict and recusing himself or herself in accordance with applicable law and regulations.

D. The primary responsibility of the Board of Directors is the formulation and evaluation of policy and making financial decisions in a financially responsible manner, as required by law. Routine operational matters concerning the operational aspects of the District are generally to be delegated to professional staff members of the District for regular business; however, the Board may, under special circumstances, provide direction on operational matters on items under the Board's consideration.

E. Directors should commit themselves to emphasizing the focused, relevant, thoughtful, positive contributions to the discussion and collaborative analytical process, avoiding double talk, hidden agendas, gossip, backbiting, and other negative forms of interaction.

F. Directors should commit themselves to focusing on issues and not personalities or other prejudices. The presentation of the opinions of others should be encouraged. Cliques and voting blocks based on personalities rather than issues should be avoided.

G. Differing viewpoints are healthy in the decision-making process. Individuals have the
right to disagree with ideas and opinions in a courteous manner, without being disagreeable. Once the Board of Directors takes action, Directors should commit to supporting said action and should not create barriers to the implementation of said action.

H. Directors should develop a working relationship with the General Manager wherein current issues, concerns, and District projects can be discussed comfortably and openly. In seeking clarification on informational items, Directors should approach the General Manager or Assistant General Manager to obtain information needed to supplement, upgrade, or enhance their knowledge to improve legislative decision-making.

I. In handling complaints from residents and property owners of the District, said complaints should be referred directly to the General Manager.

J. In handling items related to safety, concerns for safety, or hazards should be reported to the General Manager or Assistant General Manager.

K. In seeking clarification for policy-related concerns, especially those involving personnel, legal action, land acquisition and development, finances, and programming, said concerns should be referred directly to the General Manager or legal counsel.

L. When approached by Authority personnel concerning specific Authority policy, Directors should direct the Authority personnel to the General Manager. Directors may directly consult with the General Manager or legal counsel.

M. The work of the District is a team effort. All individuals should work together in the collaborative process, assisting each other in conducting the affairs of the District.

N. When responding to constituent requests and concerns, Directors should be courteous, responding to individuals in a positive manner and routing their questions through appropriate channels and to responsible management personnel.

O. Directors should function as a part of the whole. Issues should be brought to the attention of the Board as a whole, rather than to individual members selectively.

P. Directors are responsible for monitoring the District's progress in attaining the goals and objectives, while pursuing its mission of continued existence to assure its residents of the right to purchase their fair share of available imported water.

Q. Directors who consistently ignore or violate these procedures may be subject to censure by the Board or removal from representing the Board at any activities where they might be designated by the Board as a representative of the District.
