

Sweetwater Authority PRV Incentive Application

Sweetwater Authority is offering an incentive in the form of a bill credit for the repair or replacement of an existing Pressure Reducing Valve (PRV). New construction projects are not eligible for this bill credit. The PRV incentive is available to residential customers that have water pressure exceeding 80 pounds per square inch (PSI).

Sweetwater Authority will provide a credit of up to \$75.00 on your water bill for repair or replacement of an existing PRV. An inspection of the PRV after installation may be required to ensure the device is operating properly in order for incentive application approval.

Customer Info

Name _____ Sweetwater Authority Account # _____

Install Address _____ Phone # _____

Email Address _____ Replacement or Repair (Circle One)

PSI reading before replacement _____

PSI reading after installation of new device _____

Date _____ Signature Authorizing Bill Credit _____

Do not forget to attach your receipt

Sweetwater Authority assumes no responsibility for the Pressure Reducing Valve or workmanship of the installation. This incentive is optional and customers of Sweetwater Authority are not required to participate.

All installations must take place in properties that are served by Sweetwater Authority. Funding is limited and rebates are offered on a first-come, first-served basis or until funding is exhausted.

PRVs must be installed on service lines that are directly connected to the Sweetwater Authority distribution system. PRVs connected to private wells are not eligible.

Receipt/s and application must be received and dated between July 1, 2023 and June 30, 2024.

Send completed application to:

Sweetwater Authority

Attn: Water Efficiency Program

505 Garrett Avenue

Chula Vista, CA 91910 or email to waterefficiency@sweetwater.org

Eligibility, rules, terms and conditions

- New construction does not qualify
- Purchase must be made between July 1, 2023 and June 30, 2024
- Application forms without complete information or a valid receipt will be returned to the applicant
- Sweetwater Authority staff may schedule a site visit to verify the installation/repairs prior to issuing rebate
- Existing structures without PRVs that wish to add a PRV must have pressure in excess of 80 PSI (pre-inspection required)
- Limit 1 PRV incentive per account or address
- Customers must be current with no outstanding balance in order to apply for credit

Questions or assistance with this application can be obtained by calling (619) 409-6779. Messages are reviewed daily and calls are normally returned with 24 hours.
