

Laundry to Landscape Checklist

Do you have a 3 way valve connected to your system, is it labeled “landscape / Sewer”.

Required installation prior to receiving rebate

Do you have other sources of Gray water connected to the Laundry to Landscape system?

Only one source of Gray water allowed for the rebate – the clothes washer

Is your gray water discharging subsurface? *No above ground discharge allowed*

Does your system create run off? *No run off allowed*

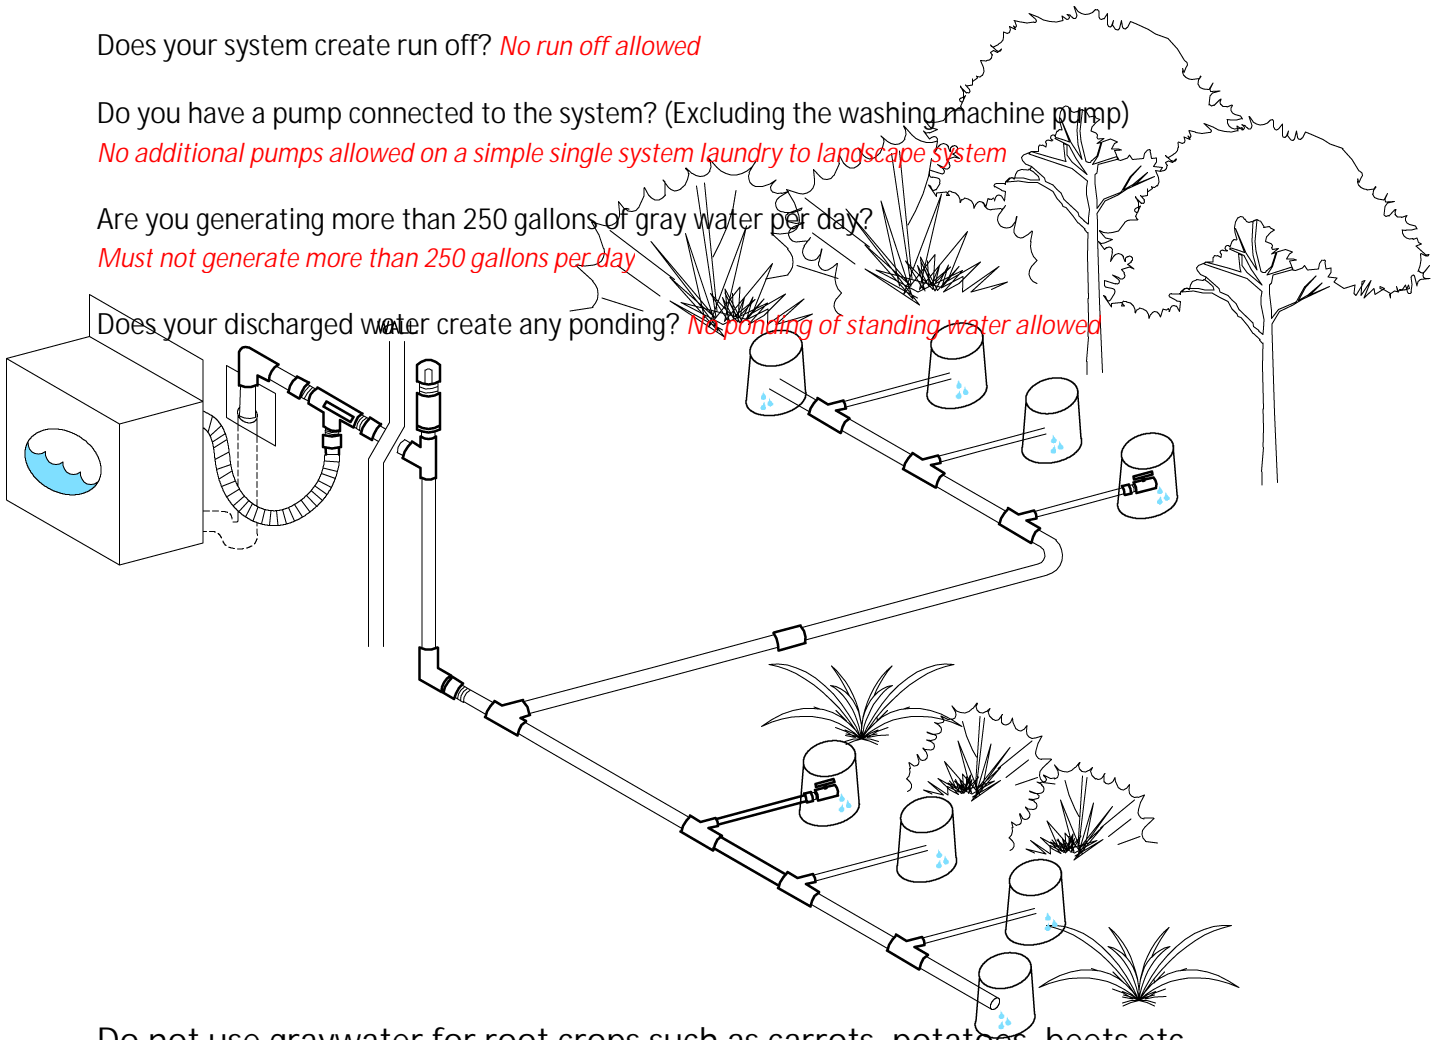

Do you have a pump connected to the system? (Excluding the washing machine pump)

No additional pumps allowed on a simple single system laundry to landscape system

Are you generating more than 250 gallons of gray water per day?

Must not generate more than 250 gallons per day

Does your discharged water create any ponding? *No ponding of standing water allowed*

Do not use graywater for root crops such as carrots, potatoes, beets etc....

Thank You for Your Participation in Sweetwater Authority's Laundry to Landscape Program.
