NOTIFICATION FOR 30-DAY PUBLIC REVIEW PERIOD

2025 Urban Water Management Plan

NOTICE IS HEREBY GIVEN that Sweetwater Authority (Authority) has prepared an update to its Urban Water Management Plan (UWMP) in accordance with the California Urban Water Management Planning Act (Act) and the Water Conservation Act of 2009, commonly referred to as SBX7-7, and the guidance provided by the California Department of Water Resources UWMP Guidebook 2025.

The Act mandates that every urban supplier of water providing water for municipal purposes to more than 3,000 customers or supplying more than 3,000 acre-feet of water annually, prepare and adopt a UWMP and that the UWMP be updated and adopted at least once every five years on or before July 1, in years ending in six and one. UWMPs support a water suppliers' long-term resource planning to ensure that adequate water supplies are available to meet existing and future water needs.

Pursuant to the Act, the Authority is soliciting comments from the public on the 2025 UWMP. A copy of the draft aforementioned documents can be found at <https://www.sweetwater.org/364/Projects-under-Public-Review>.

The aforementioned documents will be circulated for a 30-day period for public review, beginning April 20, 2026 and ending May 19, 2026.

The public and interested parties are invited to comment on the aforementioned planning documents, and submit written comments to Kyehee Kim, Engineering Manager, at 505 Garrett Avenue, Chula Vista, CA 91910, or by email at kkim@sweetwater.org.
